4	Microphone	**8**	Left scanner trigger button

Turning ON the WPA 1200 II for the First Time

After you have initially charged your device for about 12 hours, the device is ready to be used. You can now start up your device where you'll calibrate the display, learn some basic stylus usage, and set up the system time zone, date and time.

Power ON Button
Turn on your device by pressing the power button on the front panel.

Rear View

13	Speaker	**19**	Right scanner trigger button
14	Strap holder	**20**	Infrared (IR) port

Installing the Battery

1. Open the battery compartment by pushing the latch in the direction of the arrow and lifting up.

Compartment contacts
Plastic battery tab
**Battery securing clip**
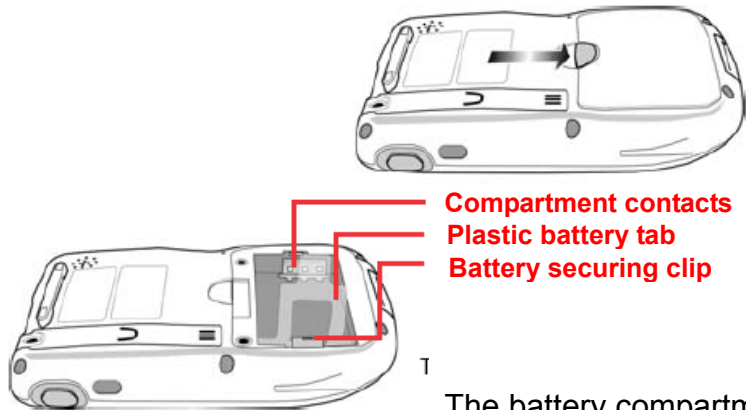

The battery compartment is displayed:

2. Position the battery pack, making sure the battery contacts are aligned with the contacts in the compartment and the battery is placed on top of the plastic tab, as shown in the following illustration.
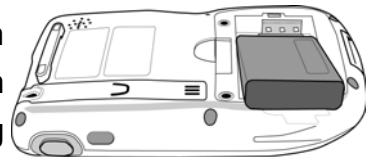

3. Slide the battery pack into the battery bay while simultaneously pulling the plastic tab and securing clip until the battery clicks into place.

Securing clip

Plastic tab
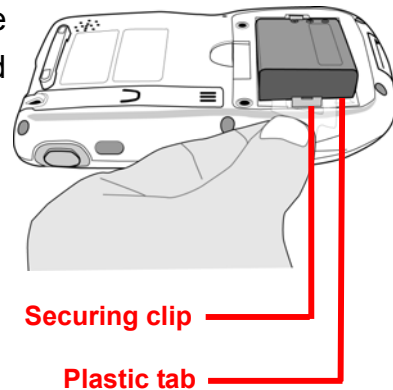

4. Replace the battery compartment cover.

Keypads and Function Buttons

When the Function button is pressed, an icon appears in the operating system.

Function activated icon
